

Tierra Blanca Ranch

The Tierra Blanca Ranch is a 30,000 acre working cattle ranch situated in New Mexico's Black range mountains.

For almost 20 years, this beautiful and historic Ranch has been the setting where many troubled and at-risk Youths have turned their lives around in a very unique and special environment.

The Chandler Family and staff are Christians serving God by helping children that are stuck in a crazy cycle, recover, heal and begin a new life.

The staff at Tierra Blanca Ranch seeks to restore order in your child's life. By using proven methods they can help turn your child's life around and become a productive member of your home and society.

For over 15 years

Tierra Blanca Ranch (TBR) has been working with kids that are:

1. Unmanageable & uncontrollable by their families or society
2. Spiraling out of control.
3. Not responding well with traditional counseling
4. Defiant and noncompliant
5. Stealing and Lying
6. Physically threatening
7. ADD, RAD, ADHD and other morbidities
8. Unwanted or at-risk,
9. Emotionally, mentally or physically damaged by their environment
10. Sexually abused
11. Addicted to drugs, sex, pornography,
12. Suicidal
13. Hurting themselves or others

There are instances when parents, counselors and therapists see a child needs to be removed from their current environment to help break the stalemate, the downward spiral, the irrational cycle in which the child is stuck before its too late.

Unmanageable Kids are taught;

- Responsibility,
- Self discipline,
- Leadership skills,
- Intellectual development,
- Consequences,
- The necessity of having self respect and respect for others.
- Sound biblical principles.

A SIMPLE LIFE

The ranch is a 30,000 acre working cattle ranch 40 miles from the nearest town. The Chandlers are Cattle ranchers with a heart for God, and turning kid's lives around. The environment is similar to what a ranch would be like 100 years ago. It is a simple life, where kids get back to nature by camping, cooking, physical fitness, working cattle, riding horses, caring for animals, doing school work, reading, singing and being in a loving environment.

Team Approach

The TBR staff works with families, therapists, counselors school districts, county and state governments, judges and mental health professionals as a team. TBR is a safe healing remote environment that brings healing and wholeness to troubled kids and their families.

TBR has provided placement for youths failing in standard Residential Treatment Centers (RTC) environments. These entities experience positive results with the Kids in TBR's care.

Often kids arrive at TBR ready to hurt themselves, their parents or anyone that gets in their way. They often have uncontrollable anger and have been into things that are destroying and causing despair and hopelessness within the family.

TBR has helped **OVER 300** kids & their families heal and change.

Approach for healing

- Relationships are fostered.
- Love and respect are taught and demonstrated,
- Discipline is administered.
- Consequences are given.
- TV and the internet are restricted.
- Work, responsibility and respect are expected.
- The past of these kids is forgiven.
- Kids receive a fresh start.
- The Bible and it's teachings is integrated.
- Their hearts are healed

Kids are given a second chance to learn to act responsibly, re-gain trust and build relationships. The healing, restoration and turn around of most of the attendees is amazing. Kids that are defiant, angry, uncooperative, self-destructing and emotionally checked-out learn how to love themselves again and come to love others. In the "system", often kids medicated to the point of compliance, to the point of being a "zombie", are now smiling, loving, cooperative Kids.

Supervised & Consistent Environment

The environment includes close supervision and consistency at the Ranch. The kids learn to care for animals such as cattle, horses, dogs, cats and even a llama. Over time the kids are able to develop strong loving and nurturing bonds. They gain confidence and self-esteem learning to ride horses, herd cattle and begin to feel self-esteem again.

Feeling Overwhelmed - Hopeless?

Parenting a troubled teenager can be overwhelming for you and your family. You may feel hopeless, desperate, angry, and overwhelmed and confused with your child's choices. Your home may seem filled with chaos and tension. You know that something has to change.
